What is SAP S/4HANA Cloud Public Edition?

A comprehensive enterprise resource planning (ERP) system with integrated intelligent technologies, such as artificial intelligence (AI), machine learning, and advanced data analytics, is **S/4 HANA Cloud Public Edition**.

Businesses may utilize SAP S/4HANA cloud to organize internal and external resources, manage business transformation quickly, embrace new business models, and harness AI's predictive potential. With SAP HANA software, take advantage of industry depth, tight, native interaction between processes, and a uniform in-memory data model.

SAP S/4HANA Cloud Public Edition is a ready-to-run cloud ERP that delivers the latest industry best practices and continuous innovation.

Key capabilities

- A full-service approach and multidisciplinary model that provides support throughout the cloud journey with SAP S/4HANA
- Industry-focused solutions that can be tailored for specific enterprise needs and business outcomes
- Deep SAP experience, proprietary accelerators, and extensive business + technical knowledge
- Proven capabilities and leading practices for integrating SAP S/4HANA with the broader SAP cloud suite

Potential benefits

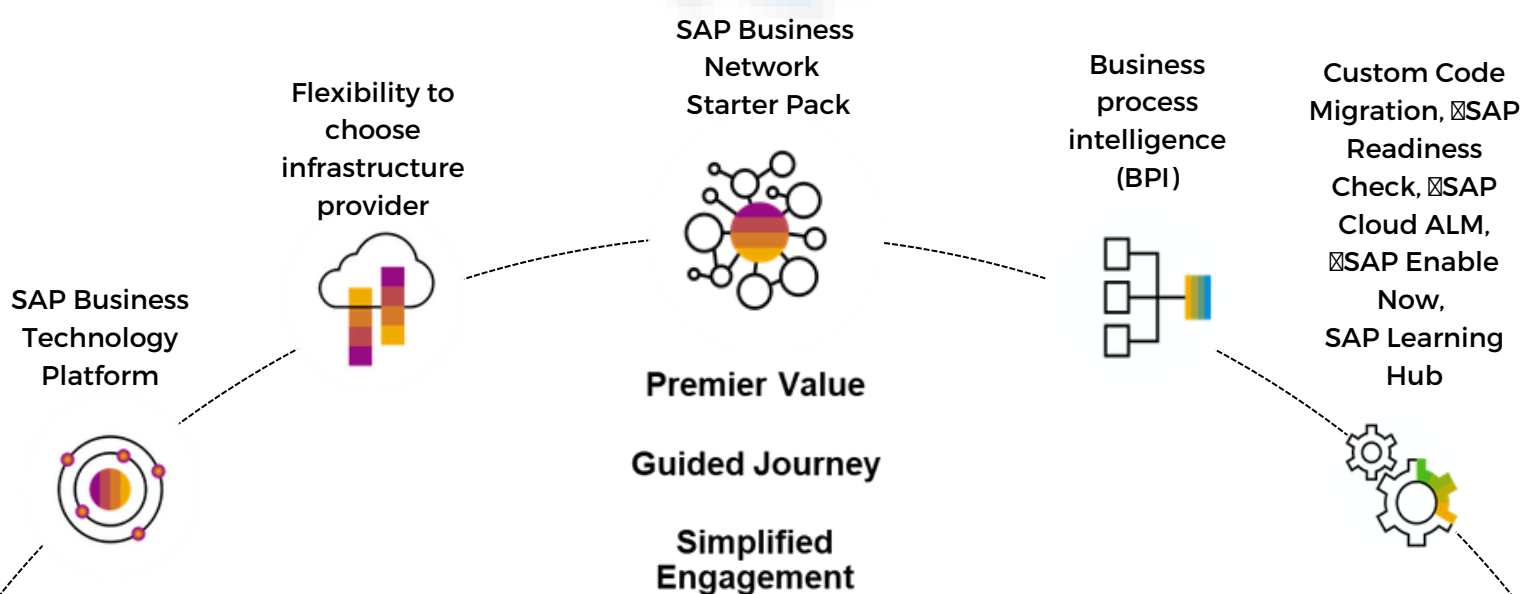

- Simplify the SAP S/4HANA Public Cloud journey with a single source for your needs
- Reduce transformation risks while improving delivery quality and outcomes
- Gain speed to value, moving to SAP S/4HANA in as little as 25 weeks
- Transform with an approach tailored to your organization's specific needs
- Increase business flexibility and innovate with greater agility
- Accommodate future business growth and the specific requirements of subsidiaries

Line of Business Packages

- Modular Cloud ERP*
- Human Experience Management (HXM)
